Avoid rash driving, students told

Coimbatore, Feb 23: Rash driving is the cause for road mishaps in Coimbatore city, said Raj Khanna, Assistant Commissioner of Police (ACP), Traffic west, Coimbatore. He was speaking at the road safety awareness programme organised at Sri Krishna Polytechnic College, Kovaipudur in the outskirts of the city when he pointed out that about 400 accidents take place daily across the country and added that Coimbatore records 10 accidents daily. Of which, seven road mishaps are by youth. All because of drunken driving.

Urging the students to drive safe, he said that main reason for these accidents is mostly rash driving and advised the youth to follow four things while driving such as checking vehicle conditions, valid driving licence, vehicle insurance and pollution certificate. In Coimbatore, about 165 cameras are installed in various parts to check traffic violations and to control accidents.

Police e-eye app and other apps also are helping to find out the traffic violations, he said adding that cinematic style driving should be avoided. He also quoted an example in Germany wherein bicycle is used to minimize pollution on roadc. He also explained about the new traffic rules and fines to the students.

G.Bansal Rajkumar, Principal inaugurated the programme and outlined the purpose of the event. Faculty members and staff were also present on the occasion.
